## Profile

Self taught Web Developer with 3 years of knowledge in front-end, back-end and API web development. Adept in user interface, testing, and debugging process's. Able to effectively self-manage during independent projects, as well as collaborate as part of a productive team. Committed to utilizing my skills to further the mission of a company.

## Projects

### Example Blog Site, <https://blog-site-with-sanity.vercel.app>

A Next.js Example blog site that I can add posts and allow comments from users.

### NFT-MarketPlace, <https://nft-challenge-xi.vercel.app>

Created with Next, React, Tailwind, Typescript, Thirdweb and powered on the backend with sanity.io. This project is a site that displays test nft's that users can mint using their ethereum wallets.

### Example Ecommerce Site, <https://ecommerce-site-eight.vercel.app>

An Example Ecommerce site created with Next.js with a Sanity.io backend and Stripe.js for payment handling.
